

# HERE Technologies

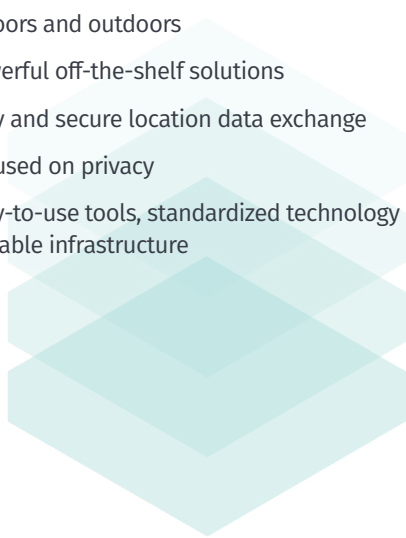

## Home of the HERE Open Location Platform

HERE Technologies is the leading mapping and location data platform. Organizations and developers around the world use our location data, tools and services to power better real-world outcomes. Journeys become faster, more efficient and safer; fleets optimize deliveries; supply chains become more predictable; and services become location intelligent.

HERE is a privately held company with multiple shareholders: Audi, BMW, Bosch, Continental, Daimler, Intel and Pioneer.

### The HERE Open Location Platform
